

Please help us to end homelessness and provide innovative mental health alternatives for Vermonters.

People We Serve: Pathways Vermont supports our state's most vulnerable people to live and thrive in the community at times of distress in their lives: when they are experiencing chronic homelessness, incarceration, institutionalization, mental health struggles, or substance use challenges.

Pathways Vermont Giving Day, June 20, 2024: A day to celebrate our 14 years and continued efforts to help end homelessness and provide innovative mental health alternatives and raise funds to support our continued work throughout Vermont. **Sign on now to get the full value for your investment!**

Who Will You Reach?: A diverse range of individuals both throughout Vermont and nationally who are also committed to Pathways' mission. You will engage small business owners, state representatives, and neighbors who are invested in making a positive difference for people in our community.
